CURRICULUM™

Your child will participate in a nationally-recognized educational program that is designed uniquely for toddlers. Experience Toddler is a research-based curriculum that supports your child's rapidly growing curiosity. As your child participates in this program, they will:

- Build relationship skills and learn to express their feelings
- Have access to specialized books, tools, art materials and toys that invite them to investigate new concepts and build vocabulary.
- Engage in playful activities that stimulate their brain and support their development of 40 foundational skills.

NEW THEMES EVERY MONTH!

Every month, your child will explore a new and exciting theme. Each week begins with a new storybook. Your child will build strong literacy skills as well as listening comprehension, book handling and communication skills. The story will be expanded into math games, music activities and art projects.

Hands-on Learning through Play

Your child's teacher will use books, puppets, music, blocks, puzzles and manipulatives to inspire a love of learning. While your child plays, they will naturally build 72 foundational skills. These skills are interwoven within 7 developmental domains:

- social-emotional
- physical
- language and literacy
- math
- science
- social studies
- creative development

Stay Connected Each Step of the Way

The family newsletters help you stay connected to your child's learning each week. These newsletters explain all the daily activities your child engaged with throughout the week and explains the skills they gained. The newsletter also includes a fun activity suggestion that you can try at home to continue the learning.

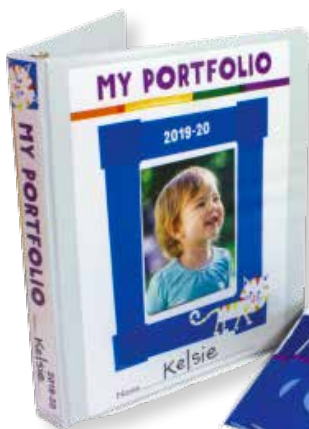

At the core of all learning is a trusting and loving relationship. Experience Toddler Curriculum is designed to help you and the teacher embrace your child's unique potential and connect with their expanding curiosity about our diverse and beautiful world.

Individualized Play and Learning for Continued Growth

As your child grows, the curriculum helps the teacher individualize the experience and increase the challenge so that your child is constantly learning at their unique pace. Your child's progress is tracked with their personalized portfolio and progress monitoring reports.

Your child's teacher participates in monthly professional development and receives a new Experience Toddler teaching kit each month to ensure that your child has access to latest teaching methods and the highest quality tools for hands-on learning.

Your child's brain doubles in size during their first year and is at 90% of its adult size by age 5. Research has shown us that the quality of a child's experiences in the first few years significantly shape how their brain develops into adulthood.

**We are excited
for a year
of growth!**
